# VERSYS 650 FEATURES

## TFT Colour Instrumentation with Smartphone Connectivity

The compact new 4.3" all-digital TFT colour instrumentation gives the cockpit a high-tech, highgrade appearance. The new meter also offers additional features unavailable on the previous model, including smartphone connectivity.

## Latest Versys Family Styling

Redesigned upper cowl inspired by the Versys 1000 and a new windshield bring the Versys 650 in line with latest Versys family styling.

## Slim, Upright Riding Position

Slim, upright position and wide handlebars offer a naturally relaxed posture and high controllability

## KTRC (Kawasaki TRaction Control)

Kawasaki's advanced traction control system provides both enhanced sport riding performance and the peace of mind under certain conditions to negotiate low-traction surfaces with confidence. Two modes allow riders to adjust settings to suit the riding situation and rider preference.

## USB Outlet (Accessory)

Complementing the accessory DC outlet, a new accessory USB outlet features dual-covers for high water resistance. Both power sources can be built into the cockpit's inner cover, where they would be ideally positioned for charging accessories or personal items.

## 649 cm3 Liquid-Cooled, 4-Stroke Parallel Twin

Optimised for gratifying response in everyday riding situations, the exciting 649 cm3 Parallel Twin engine offers smooth, linear response, strong low-mid range torque and favourable fuel economy.

## Increased Wind Protection

Together with the redesigned upper cowl, a new windshield offers increased wind protection, contributing to greater rider comfort and adding to the Versys 650's potential as a capable touring partner. Its four positions can conveniently be adjusted from the rider's seat.

## LED Lighting

Complementing its LED taillight, new LED headlights add symmetry to the Versys 650's "face." LED turn signals add a modern touch, contributing to the bike's good looks.
